

Legal Fund of Michigan Students for Palestine

On September 12, the office of

Michigan Attorney General Dana Nessel announced that they are filing criminal charges against 11 students and grad workers for their alleged involvement during the police raid on the University of Michigan encampment on May 21 and a separate protest in April.

The actions by the Attorney General and the University of Michigan show the growing push to silence pro-Palestine activism since October 7th. Regents have made abundantly clear that their goal is to preserve their ability to support Israel and its genocide, and they are willing to abuse any and all of their powers to do so.

We are opening this fundraise to raise funds for the 11 brave activists that were charged during the May 21st raid and for the other pro-Palestine activists at the University of Michigan fighting for a better world. Funds will be used for legal costs, defense campaign costs, and mutual aid for activists facing charges (emergency relief, food, necessities, etc.). Contributions to this legal fund can help ensure that voices speaking out for justice on campus are not intimidated into silence.

Mutual Aid Fund for Alexio

"I spoke the truth against immigration officers and stood for Mexico."

Although Operation Metro Surge formally concluded, deportations continue daily and dozens of Minnesotans still face federal repression for resisting ICE. Alexio is among them. He has been targeted for his protest activities.

Alexio's arrest, detention, and legal proceedings have been traumatic and destabilizing. During his arrest, federal agents rammed the vehicle he and a friend were in. His apartment and belongings were destroyed during a search and chemical weapons were deployed inside the unit while family members, including young children, were present.

Alexio has faced numerous challenges since being released. Alexio spent three months in men's shelters. These funds will help Alexio rebuild his life and arrive at the stability he needs and deserves for what lies ahead.

Support Justice Forral

Justice Forral has been arrested three times for

charges from June 11th, 2025. During the 1st arrest, Justice was zip-tied so tightly and for so long that they were later diagnosed with nerve damage and deal with significant pain as a result. Funds will go directly towards medical expenses related to Justice's nerve damage, living expenses impacted by their job loss, and care during the trial.

Support Bajun Mavalwala II

Bajun's participation in the protest was peaceful & non-violent. This case is entirely political and has nothing to do with law and order, or even the protest. It's a show trial. Funds will be used to cover upcoming legal expenses and the defense investigation.

Stand with Jac Archer

Jac Archer (they/he) is a treasured member of the Spokane community. Your contributions will support their living expenses in the wake of the trial and while responding to the unjust verdict.

Support DFW Anti-ICE Protesters

On July 4, 2025, people held a noise demonstration at Prairieland ICE Detention Center in Alvarado, Texas to show solidarity with ICE detainees and protest ongoing deportation campaigns. At this protest, there was a defensive shooting that Trump's DOJ has skewed as a terrorist ambush. The state and federal governments have charged 17 people thus far. Almost all are charged with organized criminal activity, and the state set their bonds as high as \$15 million.

Attorney Daniel Rosen tried to smear these fifteen defendants by alleging that they are the ones who are really putting the community in danger and not ICE. These 15 defendants are members of our tradespeople and educators, musicians and artists; they are people who know their neighbors and who care about them, who stood up with the rest of us to oppose the federal invasion of our cities. These are not just arrests; this is an attack on our neighbors, coworkers, family and friends, and an attack on anyone who stands in solidarity with them. This is an attempt to intimidate us. We have the defendants, and with each other. The 15 defendants are facing serious charges and have a long legal battle ahead of them.

What is political repression?

Political repression is the act of a state entity controlling a citizenry by force for political reasons, specifically by restricting or preventing the citizenry's ability to take part in the political life of a society. Repression tactics target the citizenry who are most likely to challenge the political ideology of the state in order for the government to remain in control.

This practice manifests through violent actions, legal and administrative restrictions, and through surveillance and censorship.

"And the little screaming fact that sounds through all history: repression works only to strengthen and knit the repressed."

— John Steinbeck, *The Grapes of Wrath*

"Do not obey in advance. Most of the power of authoritarianism is freely given. In times like these, individuals think ahead about what a more repressive government will want, and then offer themselves without being asked. A citizen who adapts in this way is teaching power what it can do."

— Timothy Snyder, *On Tyranny: Twenty Lessons from the Twentieth Century*
